P R O J E C T

PROJECT ERP CNI & Maintenance

Client : PT. Citra Nusa Indah Cemerlang

Create ERP Project from scratch with odoo version 14, for that internal company . Before CNI using Odoo, that company use another ERP the name is Pro Int ERP software. Because many adjustments depend on some project flow, we customize some modules such as sales, purchases, accounting and inventory, and also for the default reports from odoo is not suitable, so we create some new reports as they want. I also manage current API where every any new SO has created with old PRO Int ERP will be auto created to Odoo, of course we work together with Pro Int technical

PROJECT ERP MARKINDO & Maintenance

Client : PT. Markindo Rekateknik

For the Markindo project, in this project I did a lot of migrations which is previously used odoo version 10 to odoo version 13, for this odoo 13 migration I had to port many modules that previously could run on odoo 11 to run well on odoo 13.

Maintenance Report Kopnus

Client : PT. Koperasi Nusantara

Change Request from User HR. Where the user want to customize with new template also fix some bug in the current report
